

OPERATION AND MAINTENANCE MANUAL
CITY OF HALF MOON BAY
WASTEWATER TREATMENT FACILITIES
TABLE OF CONTENTS

Page No.

CHAPTER I - INTRODUCTION

1. Purpose of Project
2. Objectives of Wastewater Treatment
3. Water Pollution Control Plant Features
4. Design Criteria
5. Simplified Schematic Flow Diagram

CHAPTER II - SUMMARY OF REQUIRED TASKS

1. Duties of Plant Personnel
2. Daily Procedures
3. Weekend and Holiday Procedures
4. Operators Plant Check Out and
Clean-up Schedule
5. Laboratory Control of Treatment Process
6. Housekeeping
7. Operating Records and Logs
8. Maintenance Instructions
9. Plant Safety
10. Earthquake Safety Rules

TABLE OF CONTENTS

Page No.

CHAPTER III - GENERAL OPERATIONS PROCEDURES

1. General Operations Procedures
2. Main Control
3. Alarms
4. Valve Numbering
5. References

CHAPTER IV - HEADWORKS

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping
6. Safety
7. References

CHAPTER V - INFLUENT PUMPING

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping
6. Safety
7. References

TABLE OF CONTENTS

Page No.

CHAPTER VI - AERATED GRIT REMOVAL TANKS

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping
6. Safety
7. References

CHAPTER VII - PRIMARY CLARIFICATION

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping
6. Safety
7. References

CHAPTER VIII - ACTIVATED SLUDGE PROCESS

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
 - a. Plug Flow Operation
 - b. Contact Stabilization Operation
 - c. Complete Mix Operation
 - d. Step-Feed Aeration Tank Operation
- ~~5. Control of Treatment Process by Mean Cell Residence Time~~

TABLE OF CONTENTS

Page No.

5. Control of Treatment Process by
Mean Cell Residence Time
6. Calculations for Activated Sludge Process
Control and Evaluation
7. Operational Example Problems
8. Housekeeping
9. Safety
10. References

CHAPTER IX - SECONDARY CLARIFICATION

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping
6. Safety
7. References

CHAPTER X - CHLORINATION-DECHLORINATION

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping
6. Safety
7. References

TABLE OF CONTENTS

Page No.

CHAPTER XI - EFFLUENT DISPOSAL

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping
6. Safety
7. References

CHAPTER XII - AEROBIC DIGESTION

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Recommended Operating Parameters
6. Housekeeping
7. Safety
8. References

CHAPTER XIII - SLUDGE DEWATERING

1. Purpose and Intent
2. Description
3. Design Criteria and Components
4. Operations
5. Housekeeping

TABLE OF CONTENTS

Page No.

6. Safety

7. References

CHAPTER XIV - AUXILIARY SYSTEMS

1. Water Systems Nos. 1, 2 and 3

2. Electrical System

3. Gas System

4. Air Systems

5. HVAC System

CHAPTER XV - MAINTENANCE INSTRUCTIONS

1. Numerical File of Preventive Maintenance Requirements

2. Edge-Punched File of Preventive Maintenance Cards

3. Numerical File of Equipment Data Cards

4. Operation and Maintenance Instruction File

5. Importance of Records

CHAPTER XVI - EMERGENCY OPERATING AND RESPONSE PROGRAM

1. Objectives

2. Vulnerability Analysis

3. Methods to Reduce System Vulnerability

4. Mutual Aid Agreements

5. Emergency Equipment Inventory

6. Preserving Treatment System Records

7. Industrial Waste Inventory/Monitoring System

TABLE OF CONTENTS

Page No.

8. Coordinating Instructions for Local Police and Fire Departments
9. Responsibilities of Treatment System Personnel
10. Emergency Response Center
11. Auxiliary Personnel Requirements

CHAPTER XVII - SAFETY

1. General
2. Sewers
3. Electrical Hazards
4. Mechanical Equipment Hazards
5. Explosion and Fire Hazards
6. Bacterial Infection (Health Hazards)
7. Chlorine Hazards
8. Oxygen Deficiency and Noxious Gases
9. Laboratory Hazards
10. Safety Equipment
11. Process Chemical Handling
12. Safety References

CHAPTER XVIII- PERSONNEL REQUIREMENTS

APPENDIX

OPERATION AND MAINTENANCE MANUAL

MONTARA PUMP STATION

TABLE OF CONTENTS

Page No.

CHAPTER I - INTRODUCTION

1. Purpose and Function

CHAPTER II - OPERATING PROCEDURES

1. Raw Sewage Pumping System
2. H₂S Control System
3. Engine Generator (Auxiliary Power System)
4. Heating and Ventilation System
5. Electrical System
6. Drainage System
7. Water System
8. Emergency Operation

CHAPTER III - MAINTENANCE INSTRUCTIONS

1. Numerical File of Preventive Maintenance Requirements
2. Edge-Punched File of Preventive Maintenance Cards
3. Numerical File of Equipment Data Cards
4. Operation and Maintenance Instruction File
5. Importance of Records
6. Maintenance of Pumping Equipment

TABLE OF CONTENTS

Page No.

7. Maintenance of Engine Generator

8. General Maintenance

CHAPTER IV - SAFETY

CHAPTER V - PERSONNEL REQUIREMENTS

APPENDIX

OPERATION AND MAINTENANCE MANUAL
PORTOLA AVENUE PUMP STATION
TABLE OF CONTENTS

	<u>Page No.</u>
CHAPTER I - INTRODUCTION	
1. Purpose and Function	
CHAPTER II - OPERATING PROCEDURES	
1. Raw Sewage Pumping Equipment	
2. H ₂ S Control System	
3. Engine Generator (Auxiliary Power System)	
4. Heating and Ventilation System	
5. Electrical System	
6. Drainage System	
7. Water System	
8. Emergency Operation	
CHAPTER III - MAINTENANCE INSTRUCTIONS	
1. Numerical File of Preventive Maintenance Requirements	
2. Edge-Punched File of Preventive Maintenance Cards	
3. Numerical File of Equipment Data Cards	
4. Operation and Maintenance Instruction File	
5. Importance of Records	
6. Maintenance of Pumping <i>Equipment</i>	

TABLE OF CONTENTS

Page No.

7. Maintenance of Engine Generator

8. General Maintenance

CHAPTER IV - PLANT SAFETY

CHAPTER V - PERSONNEL REQUIREMENTS
